	Explanation of each row of the common disclosure Row number		
1	Instruments issued by the parent company of the reporting group that meet all of the CET1 CAPITAL entry criteria set out in the Directive. This should be equal to the sum of common stock (and related surplus only) and other instruments for non-joint stock companies, both of which must meet the common stock criteria. This should be net of treasury stock and other investments in own shares to the extent that these are already derecognised on the balance sheet under the relevant accounting standards. Other paid-in capital elements must be excluded. All minority interest must be excluded.	222,479	
2	Retained earnings, prior to all regulatory adjustments. In accordance with the Directive, this row should include interim profit and loss that has met any audit, verification or review procedures that the Bank has put in place. Dividends are to be removed in accordance with the applicable accounting standards, i.e. they should be removed from this row when they are removed from the balance sheet of the bank.		
3	Accumulated other comprehensive income and other disclosed reserves, prior to all regulatory adjustments.	16,943
